versatile media
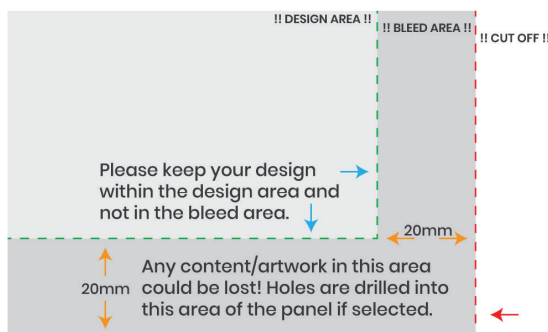

Aluminium Composite Signage
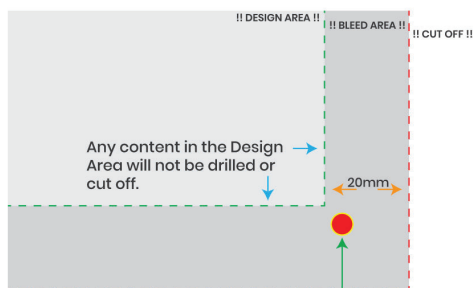

Artwork Requirements

- **All artwork must be in CMYK.**
  RGB needs to be converted to CMYK.
- **Remove registration, crop & trim marks.**
- **We don't have all fonts on hand, fonts in your file must be converted to outlines (curves / paths).**
- **100% scale for artwork. Your artwork must match the dimensions of the product.**
- **Embed all images and content to the document.**
- **10mm Bleed on all sides to allow for overprint and error.**

- **Minimum of 130DPI accepted for images embedded into the artwork (full size).**

- **Please upload your artwork online. You can also email it through to artwork@versmedia.com.au or share with our Google Drive using the above email.**
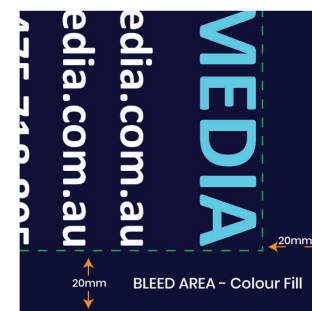

Bleed Area Configuration & Drill Holes

!! DESIGN AREA !! !! BLEED AREA !! !! CUT OFF !!

Please keep your design within the design area and not in the bleed area.

20mm

20mm

Any content/artwork in this area could be lost! Holes are drilled into this area of the panel if selected.

Anything that falls outside of the red line will definitely be removed from the print.

BLEED AREA - Colour Fill

20mm

20mm

Use the 20mm bleed area for full colour coverage of your background. Don't place any important content into the bleed area.

!! DESIGN AREA !! !! BLEED AREA !! !! CUT OFF !!

Any content in the Design Area will not be drilled or cut off.

20mm

This is the drill hole. They will be located within the 20mm Bleed area and 6mm in diameter. They will be positioned away from the edge towards the Design area.
